**Subject:** Middletown Monitoring Sites

During yesterday's call, there was a request for the AQS Site ID's for the air monitoring stations in Middletown. I was able to locate a map that was apparently put together by USEPA which shows most of the air monitoring sites in Middletown. It appears that Page #6 and/or #7 would work best. Also, as I previously mentioned this map was missing the BPG site located at 3214 Yankee Road (AQS Site ID# 39-017-0022). It also does not have the Hook Field Airport site in Middletown which only has an ozone monitor (AQS Site ID# 39-017-0018). Also, the Verity site (AQS Site ID# 39-017-0003) in Middletown which used to monitor for air toxics was shut down on March 31, 2016. Could you please forward this information out to the appropriate people?

Thanks,

**Brad Miller**

Mike/Brad,

Here is copy of all U.S.EPA sampling locations that I received this afternoon. When you get a chance, please e-mail coordinates for your sampling locations. I notice that coordinates were only included for a few days on the COCs for ALS.

Thanks,  
Diane

Hi Diane,

Please see the attachment of the canister location and concentration data. This analysis was conducted by Marta Fuoco (cc'ed). If you need additional maps for the second sampling location, please let me know, I'm catching up today from being out in the field last week.

Thanks,

Justin Coughlin

Justin,

Don't forget to send the updated map for U.S.EPA's May 23-24<sup>th</sup> sampling event when you get a chance. Have a great day and Holiday.
